

Our Mission and Vision

Fund for Education (FFE) is an Austria-based non-profit dedicated to empowering youth in the Global South to achieve employability through education. Our mission is to provide financial support, scholarships, skills training, and mentorship to help young people overcome barriers and unlock their potential.

We envision a world where every young person has access to transformative education, enabling them to build brighter futures for themselves and their communities. By bridging gaps in education and fostering leadership, FFE works to create lasting change and drive sustainable development.

Our aim is to facilitate access of youth to education and accompany them to succeed in employability.

The Need for Education

Education is a fundamental pillar for sustainable development and community progress. In many regions of the Global South, financial barriers prevent dedicated young people from accessing education. Despite their eagerness to serve and uplift their communities, they lack the resources to acquire essential skills for employability. For over two decades, Fund for Education has been committed to empowering youth across 30 countries by covering their educational and training costs, helping them to contribute positively to their communities.

Program Highlights

Scholarship Funding

FFE offers scholarships to young people committed to building a better future for themselves and their communities.

We cover educational and vocational expenses, supporting students pursue careers that serve community needs and contribute to sustainable development.

FFE Learning Management System(Arena)

FFE's Learning Management System (LMS) called Arena Learning Hub is designed to offers youth in the Global South access to high-quality education for practical and engaging learning. The LMS includes diverse courses in areas such as software development, marketing, digital literacy, and leadership skills for employability and community impact.
